

## emSigner App - Go Paperless Anywhere, Anytime.

It is estimated that on average an individual employee uses 10,000 sheets of copy paper each year. Multiply that by the number of employees you have, and you can see how going paperless could aid your business and save valuable monetary resources.

If you are wondering where to start, look no further than emSigner, eMudhra's end-to-end paperless solution. This solution allows you sign, send, track, archive and manage documents in a snap, and in the process help you build an entire document ecosystem in a digital manner. What's more, this paperless solution is now available in an app form that is compatible with popular android and iOS systems. This simply means that you no longer are constrained to any particular device or location to start your paperless journey; you can literally go digital from anywhere at any time.

### Here are some key features of emSigner app:

- emSigner app supports legally valid digital (or electronic) signatures compliant with most global laws to ensure seamless digital communication in an effective and secure manner
- Communications over emSigner app are encrypted to the highest standards with a tamper-proof document-level audit trail, and system-level audit trail
- emSigner app ensures ease of use and accuracy with a three step workflow

This is just the tip of the ice burg. If you have a plan to go paperless, or just want to talk about whether emSigner app would be a good fit for your business, please reach out to us at [eservices@emudhra.com](mailto:eservices@emudhra.com)
